Profile:

I'm a student graphic designer with a strong interest in creating clear, purposeful visual work. I enjoy solving design problems and constantly developing my understanding of design as a form of communication. In addition to this, I have a keen interest in branding, knowing how it all fits together in the worlds of business and marketing.

Currently gaining experience through university projects and freelance work, and eager to grow in a creative, collaborative environment where I can contribute and continue learning.

Technical Skills:

Adobe Illustrator
Adobe Photoshop
Adobe InDesign
Adobe After Effects
Figma
Procreate

Interests:

- Editor and designer in the student magazine, I really enjoy working with my peers to bring their written pieces to life.
- Bird watcher, big fan of waterfowl!
- Bass guitar.
- Video games, specifically simulation games and roguelikes.
- DIY, from making my own plant pots to personalising all sorts.
- Charity runs. I've been participating in Raceforlife every year since I was born! Not a year missed so far.

Awards and Acknowledgements:

- 3 time Adobe x SFCA challenge winner 2022
- Heathland Artworks leaflet design 2025

Work Experience:

Communications and Engagement intern

The Guildford Institute November 2025 to Present

- Designed and updated visual communication materials including posters, signage, and digital assets to support existing branding.
- Performed admin tasks such as collating data for board meetings on Excel.
- Acted as the first point of contact for visitors, providing clear, audience-focused information and support.

Graphic Design Course Representative

Univeristy for the Creative Arts 2024 to Present

- Gathered student feedback perspectives to improve course and University to academic staff, supporting clear and effective communication.
- Attended meetings and delivered a summary of student feedback and suggested possible solutions.
- Acted as a bridge between students and faculty, strengthening collaborative problem-solving skills.

Freelance Designer and Illustrator

Self-Employed Nov 2020 to Present

- Designed branding materials including logos, social media graphics and banners.
- Managed all stages of the design process, from concept development to final delivery.
- Delivered high-quality designs in line with deadlines and technical specifications.
- Communicating with international clients to create briefs and deliver designs based on feedback.

Education and Qualifications:

University for the Creative Arts - 2026

Bachelor's degree Graphic Design

2023

Barton Peveril College - A Level

Graphic Communication: B

Business: C

Psychology: C

2021

GCSE - Average of 7

About me

I'm interested in bold, idea-led work and clear communication. I work across branding, typography and creative experimentation, often exploring how design can make information more engaging and accessible.

I like keeping things simple, with a focus on strong concepts and visuals that feel direct and easy to understand.

Outside of design, I'm into birdwatching, gardening, and playing bass guitar. I also have a habit of identifying typefaces in the wild and pointing out raster images on printed ads, usually whether people asked or not.

[CAMPAIGN+IDENTITY]

The Guildford Institute was a rebrand project aimed at attracting a younger audience.

I reimagined the brand for university-aged students in Surrey, using bright, print-focused colours alongside the original blue to retain a link to its identity.

The outcome is a simple, approachable visual system that presents the Institute as more student-friendly and relevant.

10% OF THE POPULATION
HAVE DYSCALCULIA.
YET DYSCALCULIA WASN'T
RECOGNISED AS A LEARNING
DIFFICULTY UNTIL 2001

Dyscalculia is a learning disability that affects numeracy skills, only officially known by the British government in 2001, yet around 10% of the population are effected by dyscalculia.

Perculia is an organisation that seeks to raise awareness and education the general public on dyscalculia.

PERCULIA IS RAISING
AWARENESS AND EDUCATING
THE PUBLIC ON DYSCALCULIA
BECAUSE DYSCALCULIA IS
REAL AND EFFECTS 1 IN 10.

Dyscalculia is a learning disability that affects numeracy skills, only officially known by the British government in 2001, yet around 10% of the population are effected by dyscalculia.

Perculia is an organisation that seeks to raise awareness and education the general public on dyscalculia.

DYSCALCULIA ≠ DYSLEXIA
DYSCALCULIA ≠ LOW IQ
DYSCALCULIA ≠ LAZINESS
DYSCALCULIA = REAL

Perculia is an organisation that seeks to raise awareness and education the general public on dyscalculia.

[CAMPAIGN]

My campaign, Perculia, aims to raise awareness about Dyscalculia—a learning difficulty I experience myself.

The name is a blend of perception and dyscalculia, reflecting the campaign’s focus on how people perceive and process numerical information differently.

Perculia was a fast-paced campaign developed in just 4 weeks. The main challenge was conducting focused research and crafting a striking visual identity that would be both memorable and meaningful within a tight deadline.

[CREATIVE_CODE]

Type Forecast was a creative coding project exploring the relationship between data and typography.

I developed a system that uses weather data to generate dynamic typographic outcomes, translating changing conditions into visual form. The project focuses on experimentation, using code to create responsive and evolving designs.

The final outcome is a playful and data-driven piece that demonstrates how typography can be shaped by real-time information.

[MODULAR TYPE]

Modular Type was the first project of my university experience and played a key role in deepening my understanding of typography.

This project took me on an in-depth exploration of typographic design. I created a bold, blocky typeface inspired by my city, Southampton, specifically the brutalist architecture of Wyndham Court.

The final typeface is gritty and uniform, with a stripped-back simplicity that reflects the imposing yet structured feel of the building that inspired it.

[WEB+CAMPAIGN]

Graft was a D&AD brief focused on tackling barriers to employment without relying on sympathy-led messaging.

Inspired by giffgaff's community-driven model, the project uses social connections as a practical route into work, encouraging people to share opportunities within their own networks.

The outcome is bold and confident, using colour and clear messaging to reflect giffgaff's tone, while positioning community as a powerful tool for access to employment.

The background of the image is a white canvas filled with a complex, abstract pattern. This pattern consists of numerous thin, parallel diagonal lines that run from the top-left towards the bottom-right. Interspersed among these lines are small, solid black dots. The density of both the lines and the dots varies across the image, creating a sense of depth and movement. The overall effect is a modern, minimalist aesthetic that suggests a digital or architectural theme.

**Thanks for taking the time
to look through my work**
